RAMBLES THROUGH ENGLAND.

Interesting Lecture in the Metho-
dist Church by Rev. Dr. Mc-
Lean.

An exceedingly interesting lecture
entitled "Rambles through England"
was delivered by the Rev. Dr. McLean
on Tuesday night, in the Methodist
Church.

The lecturer described London as
"The City of Monuments," and dwelt
particularly on the great monument
erected in commemoration of the great
Fire of London. He gave a graphic
description of St. Paul's Cathedral, its
architecture and statuary; Fleet
street; Wellington's monument; The
Victoria Embankment, where stands
the famous Cleopatra's Needle with its
quaint hieroglyphics; the Houses of
Parliament, and St. Margaret's Church.

His description of Westminster
Abbey, the Waltham of England, was
specially fine. Legend and myth,
hoary chronicle and poetic romance
have heightened the interest in this
remarkable and venerable pile. Built
at a time when our national character-
istics were being firmly and finally
moulded, receiving additions and alter-
ations during various periods of Eng-
lish architecture, it has passed from
the Church to the State, and, ceasing to
be Roman Catholic, has become a receiv-
ing vault for illustrious dead, and for the
obscure and little whom social accident
or family influence has lured within its
precincts.

Soldiers, whose dauntless bravery has
made Britain strong, statesmen, whose
massive intellects have been devoted
to her service, explorers and navigators
who have extended her power in every
clime, poets, whose ready, swift and
tuneful tongues have sung of her re-
nown,—all have been borne to these
"silent halls of death," to take up
their abode in a tomb as nearly humil-
ous as human ingenuity can contrive.

The lecturer described a visit to
Hugh Price Hughes, who has inaugu-
rated a society called "The Sisters of
the People" devoted to the service of
the poor.

In speaking of his experience with a
London fog, the lecturer gave an
amusing account of a conversation be-
tween an omnibus passenger and him-
self. The passenger made some ex-
traneous statements with regard to
the cold of this country, and the Doctor,
who never lost an opportunity to say
a good word for the country, gave him
some information that opened his eyes.

Everywhere the immigration litera-
ture he carried with him was seized
with avidity and almost devoured.

Passing from London, the lecturer
described a Welsh Village, laying par-
ticular stress upon the picturesque
Welsh scenery and the beauty of
Welsh singing.

While at Sheffield the lecturer
visited Rogers' Steel Works. He saw
a knife that was made in 1820. It
had then 1820 blades. Every five
years since five blades have been added
and the knife's blades now number
1870. He saw also twelve perfect
pairs of scissors the whole weighing one
half a grain. At Bristol he visited the
Muller Orphanage, where 2000 child-
ren are fed and clothed, and St. Mary's
Rdcliffe, which contains an oak
chest wherein are deposited some old
manuscripts of the Monk Rowley.
He also passed a pleasant hour in Fry's
Mammoth Chocolate Works.

Would we had space to follow the
Doctor through all his rambles,—to
the place where Robert Raikes held
his first Sunday School, to the home
of Whitfield and Tyndal, through
Sherwood Forest which sheltered the
famous Robin Hood and his band of
merry men, through the arsenal at
Woolwich and many other places of
historic or present interest.

The lecturer left Liverpool for Can-
ada on the steamer "Cardian."

HOUSE OF COMMONS.

The House will not meet on Tuesday
and Thursday of next week.

On Monday night an interesting dis-
cussion took place. Hon. Mr. Dawd-
sey in reply to McMullen's motion for
the reduction of the Mounted Police
force, said that it was the intention of
the government to cut the force down
to a point consistent with the mainte-
nance of efficiency. Smuggling still
prevailed, Yankee traders brought
whiskey across the line, and made
great use of that article in trade.
Something must be done for the pro-
tection of immigrants, and the life and
property of the Indians must be pro-
tected. They had their treaties, which
must be kept.

It had taken great patience to effect
all that the police had done and now
to reduce the force would be unwise.
If a reduction were made in the near
future they would have depredations
along the frontier. It had been said
everything was quiet at present. Yet
what happened recently. The police
on a trial saw a body of Indians whom
they suspected of killing beef. The
police were a small patrol after smug-
glers. The Indians, seeing the police,
fired and an officer dropped. Then
the police fired and an Indian fell,
shot through the lungs. In the near
neighborhood were 5,000 braves, and
but for the knowledge that 300 men
could quickly be on the spot serious
trouble would have occurred.

Patrols frequently had to return In-
dians to the reserves. Besides the pa-
trols the police had nearly a thousand
cases yearly of various crimes. The
strictest supervision must be main-
tained. A thousand men had to patrol
750 miles by 400 miles. Each U. S.
post cost twice the whole of the
Canadian force. The effects of carry-
ing the resolution would be to impede
immigration. As regarded the ranch-
ers, they had rights as well as other
citizens. They had kept their bargain
and the government must protect
their rights.

RELIGION OF THE DOMINION.

The census bulletin on religion has
been issued. It shows that the in-
crease of population in Canada during the
past ten years was 507,869, and consti-
tuted in the increase the compilers
have estimated the population of un-
organized religion in the Northwest from
which returns have not been received
in their entirety, leaving out the con-
sideration of this estimated population,
32,168, we have an increase of 47,570
for which we have complete returns.
The increase is divided among denomi-
nations as follows: Roman Catholics,
194,483; Methodists, 104,488; Presby-
terians, 79,034; Church of England,
66,692; Lutherans, 17,629; Baptists,
7,224; all other 2,181. Manitoba has
increased her population by 86,585
souls. This increase is distributed
among denominations as follows:
Presbyterians, 24,709; Methodists,
18,967; Church of England, 16,554;
Roman Catholics, 8,325; Baptists,
6,663; Lutherans, 5,561; all others,
5,774. In British Columbia the in-
crease in population is 43,142. Ac-
cording to the denomination received,
this increase is divided thus: Church
of England, 16,203; Presbyterians,
11,186; Methodists, 10,775; Roman
Catholics, 10,324. All other specified
denominations show a small increase.
It will be observed from the analysis
that the Methodists have made the
greatest proportionate increase in the
Dominion as a whole, followed by the
Presbyterians, the Church of England
and the Roman Catholics in the order
named. Two denominations have in-
creased their strength this every province
of the Dominion, the Roman Catholics
and Methodists. In Manitoba the
growth of Presbyterians has been re-
markable, more than twenty-eight per
cent. of the whole increase falling to
that denomination. In British Colum-
bia the growth of the Church of

England is even more remarkable, that
body having thirty-one per cent. of the
total increase of population.

In the Northwest Territories com-
parisons cannot be made owing to the
fact that in the census of 1881 the
population in the unorganized regions
was not included with that of the
provisional districts. While we have
the beliefs of these three districts, we
have not received all the statistics of
the other portions. Compared with the
census of 1881 the returns for 1891
show the following changes in the
provisional districts. The Presby-
terians have increased 4,196; the
Roman Catholics increased 3,707; the
Methodists increased 1,070 and the
Baptists increased 777. These statistics
show that the denominations
which relatively have become weak-
ened in the four older provinces are grow-
ing ones in the four newer acquisitions
by 23.9 per cent. against 43.3 per cent.
in the older provinces, and the church
of England but 15.1 per cent. against 18
in the older provinces, and the church
of England 17.3 per cent. against 11
per cent.

FRENCH REPATRIATION.

A deputation organized by Lauriers
waited upon the Minister of the Inter-
ior on the 17th inst., to discuss the re-
patriation of French Canadians now
resident in the United States. Lauriers
asked that a systematic effort be
made to induce the return of these.
He suggested that if they did not re-
turn to the lower Provinces, steps
might be taken to secure their im-
migration to Manitoba and the Terri-
tories.

BEST CONTRACT AWARDED.

The Indian department has assigned
contracts for beef as follows:—For
beef 7, Calgary and Macleod districts,
W. G. Conrad for north and south
Blackfoot, Cochrane Ranches Company,
upper and lower camps of Bloods;
Waldron Ranches Company, Piegan
reserve; Hall Bros., of Calgary, Stoney
reserve. The contract for the Stoney
reserve is not let yet. The prices are
considerably below last year.

REDUCTION OF SALARIES.

It is understood the civil service
commissioners, in their report, recom-
mended a reduction of salaries of first-
class clerks from \$1,500 to \$1,400
yearly and other grades in proportion;
deputy heads and chief clerks to be in-
creased; the present examination
system changed for competitive. They
submitted a draft bill to amend the pre-
sent civil service act.

BARONESS MACDONALD IN THE HOUSE.

Immediately after prayers on Satur-
day, Baroness Macdonald occupied her
old seat in the speaker's gallery. She
was accompanied by Mrs. Hugh John.

SIR FRED MIDDLETON.

Sir Frederick Middleton writes from
Moorville, Natal, Natal, England, in
answer to an invitation to the annual
supper of the ex-members of the Royal
Grenadiers: "I cannot tell you how
pleased I was at receiving an invitation
to their first annual supper from ex-
members of the association of Royal
Grenadiers, showing that your old com-
rade and chief is not forgotten. You
are right in thinking that if I was any-
where in America or Canada I should
for a certainty have been with you on
the 12th of May, and though unable to
be with you in body, I shall be there
in spirit and will not forget to drink
health and prosperity to old friends and
ex-members of the association in this
dear old regiment. I love so much
I am glad to say my family and my-
self are well and happy, and Lady Mid-
dleton joins me in wishing you all
health and prosperity and a real good
time on May the 12th."

OVER THE FALLS.

The body of a woman wearing a ring
with the inscription "Test pour les
tongues" was found on Monday in an
eddy below Niagara Falls.

The Moose Jaw Times.

"Not obliging to our ancient saw,
Not mastered by some modern term,
Not swift nor slow to change; but firm."

FRIDAY, MAY 20, 1892.

A BRIGHTER PROSPECT.

"Hail beauties May that dost inspire
Mirth and youth and warm desire,
Woods and graves are of thy dressing,
Hill and dale doth boast thy blessing,
Flare we salute thee with our early song,
And welcome thee and wish thee long."
—MILTON.

Thus we usually welcome the month
of May and thus we again welcome it,
notwithstanding that so many are in-
clined to be downcast at the lateness
of the spring.

But on the contrary we have every
reason to rejoice at the beautiful
weather now vouchsafed to us, at the
vegetation now springing into life, and
the good prospects ahead. The back-
wardness of the spring has not been
confined to the Moose Jaw District,
but has been general over Manitoba
and the Territories. A retrospective
glance will show us that this is not the
first season of this nature. A corres-
pondent in the *Free Press* stated that
in 1852 the settlers near Winnipeg
were driven from their houses by
flood on the 10th of May, and although
their wheat was not sown until the 3rd
of June, the crop ripened and was suc-
cessfully harvested. Again in 1861
the same thing happened, again the
settlers were prevented from seeding
by cold weather, as has been the case
this year, but the harvest satisfied
their fondest expectations. In 1882
seed was sown north of Regina as late
as the first week in June and yet it
ripened and gave a good yield.

The great point to be impressed on
the farmers at this critical period is
the vital necessity of expending on
every acre the utmost care in order
that what is sown may be well sown. No
pain should be spared in this regard.
The fallacy that all that is necessary
to secure a crop is to throw the seed
on the ground and tickle the surface,
has been long ago exploded.

Let the farmers do their part well
and leave the rest to that beneficent
Providence who has promised spring
time and harvest, and who when the
springtime is delayed will prolong the
season and give us the fruits of the
earth according as we deserve.

THE C. P. R. REPORT.

The annual report of the C. P. R.
has been received with general satis-
faction. The *Toronto Empire* says:—
"Comparing matters with the pre-
vious year, there is found to be a reduc-
tion in the working expenses, and an
increase in percentage of earnings,
about as satisfactory an indication of
sound management and prosperous
business as investors and shareholders
could desire. Gen. Supt. Van Horne,
deals with several important points,
among them being a full answer and
explanation concerning the charges by
a London broker that the Canadian
Pacific was not living up to its agree-
ment regarding the bonds of part of
the new Sault line. This report was
made to do duty in the London money
markets and has secured some promi-
nence in the English press, so that it is
well to hear it firmly announced that
the Canadian Pacific has never failed
in the spirit or the letter of its obli-

gations. The denial of rumored else
cooperation with the Grand Trunk
will also be well received, as also the
assurance that the management of our
two great Canadian roads are on the
most cordial relations. The outlook
for the future is promising, seeing that
the large land sales indicate a move-
ment of population to the western ter-
ritories, unprecedented in the history
of the road, and bearing largely upon
its business in coming years."

We congratulate Mr. Van Horne and
his clever associates upon the success
of their work. The prosperity of the
Canadian Pacific is sure proof to all
business men that the country is in a
sound and healthy condition.

OF VICE AND IMMORALITY.

"A wise man," saith the Preacher,
"maketh a glad father, but a fool-
ish son is the heaviness of his mother."
Our attention has been again drawn to
the question of preventing the spread of
rowdiness among the youth of our
town. This evil has grown to such
an extent that it has become, in our
opinion, the vice of the age. Town
and city municipalities are endeavoring
to regulate the public demeanor of the
rising generation, and rightly so. But
recently the council of Owen Sound
has passed a by-law that after May
15th all children under fourteen years,
not on errands or accompanied by
adults, found on the street after 9
o'clock at night will be arrested.

It is, of course, deplorable that such
enactments are necessary, but if
children cannot spend their day time
hours of recreation in legitimate
healthful amusement, and their nights
at home, instead of loafing under the
seductive influence of the livery stable,
reveling in the conversation common
to such places, or frequenting street
corners to make pedestrians the subject
of impertinent and insulting remarks
or the victims of their practical jokes,
then the authorities must interpose.

EDITORIAL NOTES.

Mr. J. H. Metcalfe, M. P. for
Kingston, has returned to his sessional
duties after a very serious illness.

The energy displayed by the town
Inspector in enforcing the health by-
law is highly commendable, and when it
becomes necessary to bring an offend-
er to time he should receive popular
support.

It is stated that Robert Watson,
M. P. for Marquette, has been offered
the constituency of Hon. Joe Martin
and that if he is elected he will receive
a seat in the Manitoba cabinet. It is
likely that he will accept.

It is stated on good authority that
the Canadian Pacific Railway Company
will shortly undertake the control of
the Intercolonial Railway, and also
run a line of fast Atlantic Steamships
for a yearly subsidy of \$250,000.

Such a rate has been made on
Duluth grain from Buffalo to New
York by rail that the Erie canal is
getting no grain traffic. This rate is
five cents a bushel and makes the
rates from Duluth to New York in-
cluding Buffalo charges, about ten
cents a bushel.

The mounted police department has
given instructions that summer patrols
be sent out to stations as usual and
the boundary patrolled from Red
River to the Rockies. The patrols
will be extended towards the north in
order to warn traders and others
against taking liquor into Athabasca,
that district not being affected by the
license law.

A motion has been made in the
House of Commons to grant power to
the Legislative Assembly of the Ter-
ritories to deal with all matters pertain-
ing to education, and the use of dual
languages in the courts and in the pro-
ceedings of the said Assembly, provid-
ing, however, that no school sections at
present constituted shall be interfered
with without the consent of the parties
composing such section.

A point of considerable interest to
the Masonic fraternity is involved in
Mr. Kirkpatrick's bill to amend chap-

ter 10 of the Consolidated Statutes of
Lower Canada respecting oaths and
unlawful associations and oaths. The
original Act legalized the existence in
Canada of Masonic lodges constituted
or warranted by the grand lodge of
England. When the grand lodge of
Canada was formed, the provision of the
statute was made applicable to that
body, but, as every member of the craft
in the Dominion knows the jurisdiction
of the grand lodge of Canada is now
confined to the province of Ontario. Mr.
Kirkpatrick's bill is to remove doubts
as to the supremacy of the grand lodge
of Quebec and to constitute lodges by
substituting for the words "of Canada"
where they occur in the Act the words
"in Canada."

The *Winnipeg Free Press*: The im-
migration agents are wearing their
best smile this weather, the bright
sunshine and the gentle breezes from
the south, making the days eminently
pleasant ones in which to welcome in-
coming settlers. On Saturday the
arrivals and destinations were: Mani-
toba, 85; Territories 70; British Colum-
bia, 38. On Sunday, Manitoba, 70;
Territories 25; British Columbia, 14;
total of 305. From the first of
the month 3,228 new settlers have ar-
rived in the city on their way west; as
reported to the Dominion agents. Brit-
ish people were the largest number
1,696; then followed Canadians, 649;
Germans, 474; French, 291; Scandi-
navians, 102, unclassified, 106. Up to
this period last year the total number
who reached the city was 7,460, and
this year by careful calculation the
total is 19,223. Those who arrived
during the last days were distributed
as follows: Germans, (240), Balgonie,
Edmonton and Lagenburg; French to
Crehorne and Oak Lake.

A correspondent of the *Winnipeg
Free Press*, writing of the benefit to be
derived from sowing salt with wheat,
says:—

"I had a field of light land prepared
for fall wheat. I thought it would in-
crease the yield to sow salt on it. I
did so on one half the field, with the
result that the part upon which the
salt was sown was ripe fully four days
before the other half of the field. The
straw was stiff, head full, and the
grain hard and flinty. I have sown
salt on spring wheat with the same re-
sults. I did not set much value on
these results at that time, but here
where the successful cultivation of
wheat is reduced to a few hours, every
hour saved becomes of immense value.
I have sown salt on barley for many
years and in point of ripening it is
about the same as on wheat, with this
difference that salt will increase the
yield of both straw and grain on bar-
ley more than wheat."

To get the full benefit of salt it
should be sown on the surface after
the grain has come up if wheat; if bar-
ley, and sowing frost is feared, sow
before the grain comes up. The salt
will prevent the tender leaf of barley
from being frozen by a light spring
frost. The quantity sown should be
from 150 to 175 lbs. per acre, and if
possible select dry weather and dry
ground to sow. I hope that this will
meet the eye of some farmers who will
give the above a thorough test."

Prof. Craig, horticulturalist of the ex-
perimental farm has given evidence be-
fore the committee on agriculture and
colonization dealing with fruit tree plan-
ting. To prevent ravages on bark
from mice, he recommended removing
rubbish from around the tree's earth,
banking and snow packing. For repair-
ing mice bites, he advises wrapping
with tarred paper, paring the wound
with a knife and binding with grafting
wax; and when trees are valuable, graft-
ing. In planting a new orchard he
would leave thirty feet between trees of
large varieties and eighteen between
smaller. For manure he would mix
10 bushels of good ashes, 100 pounds
of crushed bones and 100 pounds of
sulphate of ammonia to the acre and
spread in three lots. To cure apple scab
the best remedy is to spray with cop-
per carbonate dissolved in ammonia.
He advises pruning in summer. He
strongly recommended native wild
species of cheney and yosemita. A
cure for pear blight is to spray with
Bordeaux mixture. He spoke at
length on grapes, advising deep plant-
ing but dealing chiefly with Ontario
He recommended native Heder, Hic,

maple and white ash for Manitoba and
the Northwest. He had discovered
fruit preservatives which would enable
fruit to be exhibited to Chicago in
perfect shape.

A copy of the May number of the
Manitoba, Winnipeg's illustrated
Magazine, has reached us, in a new
dress, and presents the neatest appear-
ance of any magazine we have seen
for some time. The publishers are
evidently bound to keep up with the
times, and deserve great credit for
issuing such a first-class publication.
Of the contents which go to make up
this excellent number, "The Equi-
sax of the east coast of Hudson's
Bay," by Walter Dickson, will prove
very interesting, as the manners and
customs of these people are truthfully
described by one who lived among
them for eight years. "Winnipeg's
Water Power" is an excellent article,
accompanied by illustrations, setting
forth the value of the Assiniboine
River as a motive power, provided a
dam and power canal was constructed
near the city. As this question is one
affecting the manufacturing interests,
the subject is of importance to capital-
ists. "The Wooing of an Indian
Maid," by J. J. Gunn, tells in a graphic
manner how two Indian Braves gam-
bled for the hand of a chief's daughter.
A photograph, together with a sketch
of the life of Joe Hess, the ex-prize
fighter, now a great temperance reviv-
alist, will prove interesting to temper-
ance workers. The two serial stories
entitled, "The shadow of a wrong," by
Alvin North, and "Beatrice Cameron,"
by F. Osman Maber, are continued
and are as interesting as ever, while
"The Red River Expedition of 1870,"
by an officer of the force, recounts in a
descriptive manner the time the boys
had making their perilous overland
journey by way of Algoma and the
Lake of the Woods. In addition to
this, Notes and Comments on Current
Events, Literary Notes and Reviews,
Publisher's Notes, Musical and Dramat-
ical Notes, the Checker Department
and several full page illustrations com-
plete the best number yet issued.

COMMUNICATIONS.

To the Editor of the TIMES.

Sir:—
I noticed some time ago in the
columns of the TIMES an editorial on
"Vice and Immorality" pointing out
the necessity of a by-law in this town,
by which swearing and the use of im-
proper language in public halls and
the streets could be punished. This
Sir, is not only an absolute necessity,
but is a duty which the town council
posing, as the "city fathers," should
forthwith see carried out. Your cor-
respondent waited after the appearance
of the article in question, thinking
that the aforesaid town council would
eagerly seize the opportunity to im-
mortalize themselves by some actual
good work. But instead of that no
action has been taken. Every other
town in the Northwest has a by-law
Prince Albert of this description and
only recently in a by-law has been fined
for using obscene language. Why
then this apathy on the part of the
Moose Jaw council? Every
day we hear our boys using filthy
language—language which is a disgrace
to their bringing-up. Our city fathers
say they can be tried and punished
under a Dominion Statute. If so, why
not do so?

Your correspondent ventures to as-
sert that on approaching any group of
boys in Moose Jaw, numbering over
half a dozen any man can hear lang-
uage that would sicken even the most
calous. Perhaps this may seem ex-
treme. It is the truth, and I defy con-
tradiction.

It is true that in the Regina by-law
a clause covering Charivaris is doubt-
ful law, but that clause does not make
the whole by-law bad, and if undoubt-
edly bad it would not be still among
the Regina by-laws, when they have
two first class lawyers in the Council
viz. Mr. T. C. Johnston, as councillor,
and Mr. Secor, Q. C. as clerk.

A By-law such as you suggested is
badly needed and should be passed as
once, otherwise the "town" may be-
come a very "hot" place.

Yours truly,
PARENT.

GENERAL NOTES.

Insolvency Legislation.

A draft of the proposed insolvency act, as submitted by the Montreal board of trade, has not meeting with favor in the west. The Winnipeg board has declared against the proposed act, on several grounds. It is claimed that it is not suited to Manitoba and the Territories, go account of the sparse population here, greater distances, slower means of communication, expensive nature of proceedings under the proposed act, etc. The simple and inexpensive act which has been in force in Manitoba for some years, is held by the Winnipeg board to be superior to the proposed Dominion Act, so far as this part of the country is concerned.

The Vancouver board of trade has also pronounced against the proposed act, as prepared by the Montreal board, for much the same reasons as those given by the Winnipeg board. The act, the Vancouver board says, "would supersede our present inexpensive and very effective method of administering the estates of insolvent debtors," while the expense of administering the proposed act, under the conditions prevailing in British Columbia, "would be no great as to leave but little for the creditors." The only advantage of the proposed act, in the opinion of the Vancouver board, "would be the obtaining of his discharge by an insolvent debtor; the indictment of punishment upon fraudulent debtors; and compulsory assignment in cases where a debtor refused to make a voluntary assignment." The latter, however, the Vancouver board believes is open to abuse, as it "could be made to operate harshly against deserving debtors who might be temporarily embarrassed."

World Fair Plans.

Executive commissioner for Canada, Professor Saunders, has returned from Chicago, where he made arrangements regarding the exhibit of live stock and horses from the Dominion at the world's fair. The limit of the number of animals for which the exhibition authorities provide has been increased beyond what was at first awarded, horses, from 75 to 100; cattle from 125 to 200; the number of sheep to 300 and swine to 125. In poultry all the space required will be given and a sufficient area will be reserved for Canadian dogs during the dog show. With regard to the arrangement of stock at the time of the exhibition, the number of sheep and swine to be placed in a single pen will be decided by the exposition authorities. A new edition of the prize list and dates for showing stock is now being prepared, and will be issued in the course of a fortnight. Following are the dates which it is expected, will be definitely settled on: For horses and cattle, from August 21st to September 21st, inclusive; sheep and swine, from September 25th to October 14th, inclusive; poultry, from October 16th to October 26th inclusive. With regard to this question of pedigrees the commissioner ascertained that the exhibition authorities accept all pedigrees which are accepted or recognized in the herd books of Canada. It is expected that the United States government will admit pure bred animals for exhibition purposes, duty free.

A Novel Entertainment for Railway Travelers.

A British traveler, aspirant to the invention of a new game which he encountered in one of the home railways. He was alone in a first class carriage when two young gentlemen and three young women entered. He soon gained from their conversation that they intended to leave a parcel at a certain station. He thought that it would be civil to tell them that they had already passed it. He was thanked, and one of the gentlemen made a pencil mark on his cuff. Soon one of the young women asked the time, and none of the party having a watch they began to guess, when the single traveler kindly told them. Again a mark was made on the cuff. The party displayed such ignorance of the route that several times, out of pure kindness, this gentleman volunteered timely information. At each time his courtesy was followed by a mark on a cuff. Presently they divided some money between them and left the train. Some time after that the traveler learned that he was the victim of a game called "Lure." The players take turns to start a conversation entirely among themselves, with a view of inducing a stranger to break into it unasked. If the lure succeeds, the starter scores one against each of the others, the latter, if he fails, scoring against him. The points, of course, can be any sum agreed upon. If the person "lured" gives wrong answer the starter is paid double. All the players are bound to support the starter.

A Novel Incident.

The other day a prominent farmer of St. Antoine, Abbe, Chateaugay, becoming suddenly insinuated the end of a rope around a tree and fastened the other end to his feet. Making a noose of another rope he placed it around his neck and fastened the other end to a whiffletree to which a team of horses were attached. He then started the horses. As a result his head was torn from his neck.

WHAT SHALL WE WEAR?

STYLES THAT ARE APPROVED AT HOME AND ABROAD.

A French Cycling Gown for Men and Young Ladies—Three Parisian Riding Habits Illustrated and Described.

American women are largely learning the importance of outdoor exercise, which their English cousins appear always to have known. Horseback riding is no longer confined to the

CYCLING GOWN AND RIDING HABIT. South and west, but has become at the east a favorite exercise. Cycling, although approached rather timidly by women, is also gaining ground. For this latter exercise there does not seem to be as yet any prescribed costume for the gentler sex, although most men, as a rule, have suits especially adapted to cycling. It is with pleasure, therefore, that we produce for the benefit of our readers, along with some French riding habits, a French cycling gown.

This cycling gown, as will be seen, is very simple, and at the same time striking in effect. The jacket and skirt are of gray tweed, finished either with rows of machine stitching or narrow braid, as may be preferred. The white flannel blouse is tucked in front and belted at the waist. The high cloth gaiters match the dress in color, while the pointed cap corresponds with the blouse, and is decorated in front with a club device or triquetra. The riding habit shown in the same cut is in black ladies' cloth, the close fitting bodice is buttoned in front, but leaves a small V opening to throw off the flat neck.

FRENCH RIDING HABITS. In the cut are illustrated two more Parisian habits. The standing figure is clothed in skirt and coat bodice of tweed. The waistcoat is in white pique. The melon shaped hat is of waterproof felt. The habit displayed on the mounted figure is in dark brown melon cloth. The cravat is of figured pique. The high silk hat, it is needless to add, is of the latest approved shape.

Wedding Dresses for Autumn. New York brides are patronizing ivory white satin and lampas for bridal dresses. Plain satin alone, with ancestral lace for its trimmings, is the choice for many such dresses, while in others it is combined with lampas, a rich brocade with satin duchesse ground strewn with large designs of foliage, or of flowers woven to resemble embroidery. A single motif of the design may be large enough to cover the entire breadth of lampas, or there may be two groups in each locality, and a still more novel arrangement has half the width of plain satin and the other half brocade with a large flower or leaf pattern. The fashionable features of wedding dresses are the crossed corsage, the full skirt, the flat bodice, and the long train. Very high collars are most used for church weddings, but the low throated waist is also worn, either cut out in a point in front, or else evenly rounded to disclose the shape of the neck.

Orange blossoms are used on the corsage of wedding dresses in a long branch from the shoulder to the waist, as the Princess Louise wore them, or else they are clustered high on the left of the corsage, and a chapeleine bouquet is sometimes added as if to catch up the drooping of the skirt; they are also worn in a half wreath under the veil on the low collar. This veil is of the twelve quarter Lyons tulle, taken three yards long, to form a square; one corner is rounded for the front, and the edges are cut, sensitive but not hemmed.

Summer wedding dresses are of crepe de chine, or of the inexpensive China silk which drapes more gracefully than satin, or else of fine white wool, says Harper's Bazar, from which the foregoing is quoted.

The Dress Album. The latest fad among English women is the "dress" album. It takes the form of a book, upon the leaves of which samples of the dresses worn by the owner are gummed. Chronological order is strictly observed in the arrangement of these cuttings. Under each scrap of silk or scrap of stuff is inscribed the date at which the dress from which it has been torn was first sent home to or worn by the compiler of the collection. Readers of fashion will doubtless have need of a separate volume for each successive season.

STARTED AGAIN.

I beg to announce that although burned down in the last fire I have started my laundry with better facilities than ever.

LEE KEE.

DOMINION OF CANADA. GOVERNMENT NOTICE.

By the Honorable Edgar Dewdney, Superintendent General of Indian Affairs.

To all to whom these presents may come, or whom the same may in anywise concern: Greeting: With reference to the notice issued by me and dated the 27th January, 1891, which prohibits, under pain of the penalties imposed under the provisions of the 12th chapter of the Revised Statutes of Canada, entitled "An Act respecting Indians," the sale, gift or other disposal to any Indian in the Northwest Territories of Canada, or in any part thereof, or to any Indian in Manitoba or in any part thereof, of any land, monument, or land containing:

Now know ye, that I, the said Honorable Edgar Dewdney, Superintendent General of Indian Affairs, for good and sufficient reasons, do hereby exempt from the operation and effect of the above-aid notice of the 27th day of January, 1891, all those parts of the Northwest Territories of Canada, hereinafter situated, lying and being north and east of the following limits:

Commencing at the height of land between the sources of the Athabasca and the North Saskatchewan Rivers, and following it north-easterly to the first water of the Beaver River, thence following Beaver River eastward to the junction with the outlet of Green Lake, thence south to the 11th Base Line between Townships 22 and 23, thence east following the 11th Base Line to the corner of Township 52 Range 12, west of the 2nd Meridian, thence south to the 12th Correction Line, between Townships 16 and 17, thence east following the 12th Correction Line to the west shore of Lake Winnipeg, and thence down Lake Winnipeg.

AND NOTICE is hereby given that the portion and portions of the Northwest Territories of Canada aforesaid within the limits above described are hereby exempted from the effect of the said notice of the 27th January, 1891, from the date of this notice.

IN WITNESS WHEREOF, I have hereunto subscribed these presents in my office in the City of Ottawa, this twenty-ninth day of April, 1892.

E. DEWDNEY, Supt. Gen. of Indian Affairs.

SHERIFF'S SALE. By virtue of a Writ of Execution, issued out of the Supreme Court Judicial District of Western Assiniboia at the suit of Herbert W. Hensell and to me directed against the lands of Arthur Jefford, I have seized and taken into Execution all the right, title, interest and equity of redemption of the defendant in and to the following lands to-wit:

The east half of section number thirty (30) in township eighteen (18) in range twenty-four (24) West of the second principal Meridian in the North West Territories, which I shall offer for sale on Saturday the eighteenth day of June A. D. 1892, at my office in the Court House, Regina, at the hour of eleven o'clock forenoon.

JAMES H. BENNON, Sheriff. Regina, March 16th 1892.

TENDERS.

SEALED TENDERS marked "For Mounted Police Provisions and Light Supplies," and addressed to the Honorable the President of the Privy Council, Ottawa, will be received up to noon on Tuesday, 7th June, 1892.

Printed forms of tender, containing full information as to the articles and approximate quantities required, may be had on application at any of the Mounted Police Posts in the North-West, or at the office of the undersigned.

No tender will be received unless made on such printed forms.

The lowest or any tender not necessarily accepted. Each tender must be accompanied by an accepted Canadian bank cheque for an amount equal to ten per cent. of the total value of the articles tendered for, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the service contracted for. If the tender be not accepted the cheque will be returned.

No payment will be made to newspapers inserting this advertisement without authority having been first obtained.

Seymour Green, Agent. Mr. R. H. Holt, proprietor of the Ottawa Hotel has commenced the foundation of a large addition to his present building. He will utilize the extension for a bar and billiard room.

At Wesley Church north of Moose Jaw on Wednesday evening next, the 25th, a lecture will be delivered by Dr. McLean on "John Ball at Home - Rambles in England." Chair to be taken at eight o'clock. Tickets 25c.

The Brunswick Hotel is undergoing extensive alterations and improvements. Mr. Ostrander, the proprietor is fitting up a bar and billiard room in the east wing of the hotel, Electric light and other improvements giving the place a very creditable appearance.

Corporal Green who has been in charge of the detachment of Mounted Police at this place has been removed to Wodan, N. W. T. The Corporal leaves a host of friends behind him. He left on Tuesday night.

Messrs. Rorison and Annable are putting their elevator in shape to handle wheat that will be threshed immediately after seeding is over. The new elevator will have a capacity of about 25,000 bushels.

Memorial Service. A Memorial Service will be held on Sunday evening in the Methodist Church.

New Soda Fountain. Mr. Thos. Healey has placed a large soda water fountain in his confectionery on High St. and is now dispensing cool refreshing drinks to the thirsty.

Married at Moose Jaw. Mr. John Nutt, of the C. P. R. dining-car service, formerly one of the constables at the depot here, was married at Moose Jaw on the 9th inst. The young lady led to the altar was Miss Maggie L. Dedds, late of Northumberland, England. -Tribune.

Arthur Morphy reports all his wheat in blade.

Mr. J. Bellamy received a car load of surplus yesterday.

Mr. John Naismith has not yet recovered from his illness.

President Van Horne arrived in Winnipeg on Wednesday noon.

The Ottawa Citizen will be published in future in eight page form.

Work is steadily progressing on the C. P. R. park. A large number of trees have been planted. No pains are being spared to make the garden and park a credit to the town.

A crazy man caused a little excitement at the train yesterday evening by walking about shouting "Green and Williams." The unfortunate man was on his way to Regina in charge of a policeman.

The Y. P. S. C. E. of the Presbyterian Church will hold a Literary and Musical Social (with refreshments) in the Church on Wednesday the 25th inst. Public cordially invited. Collection at the door.

Mr. C. W. Milestone, Asst. Superintendent of the C. P. R., Moose Jaw, was in town on Tuesday. He has made arrangements to have a culvert constructed in order to drain off the water at present lying on the east side of the town. -Regina Leader.

Regina Leader: The Rev. J. B. Silcox, a Congregationalist minister well known in Manitoba, has resigned the pastorate of East Oakland, California, owing to some disagreement that arose out of having converted the lecture-room of the church into a gymnasium for "the boys." Mr. Silcox is an able and most outspoken preacher. It is evident that he believes in the affinity of mind and muscle, but to convert a church into a gymnasium is somewhat in advance of public opinion.

Closed on the 24th. All the business establishments in town will be closed on the Queen's Birthday.

C. P. R. Traffic Receipts. The C. P. R. traffic receipts for the week ending May 14th amounted to \$358,000. The receipts for the corresponding week of last year were \$356,000.

To Visit the Northwest. Archbishop Tache of St. Boniface, and Archbishop Duhamel, of Ottawa; Bishop Lafache, Three Rivers; Bishop Grosjean, Athabasca; Bishop Macdonald, Alexandria, Ont.; and Bishop Dowling, Peterborough, Ont., will shortly make a tour of the Northwest and British Columbia.

Methodist Social. A Social and entertainment will be given on the evening of the Queen's Birthday under the auspices of the Christian Endeavor Society of the Methodist church. A good programme is under course of preparation. A good time may be anticipated.

Forest Fire. Several bad prairie fires have been raging north and south of the town. We learn that Mr. Halliday lost his granary and a large amount of grain. The fire to the south burned an immense expanse of Territory. Today Mr. John Fletcher was before R. L. Alexander, J.P., for setting the north fire. He was fined \$5 and costs.

The Virden Chronicle. The first number of the Virden Chronicle is to hand. The newspaper without question presents the neatest appearance of any paper in Manitoba. The mechanical work is under the supervision of Mr. J. F. Watkins with whose work the people of Moose Jaw have been familiar for the past three years. From a literary standpoint the paper is far above the average Manitoba country newspaper. The paper is edited by Mr. James N. McDonald late editor of the Times. Mr. McDonald is well known throughout the Territories, and needs no prediction of ours as to the success of his work. The Chronicle will become one of the foremost papers in Manitoba.

A Real Estate Calculation. Messrs. J. and R. Ritchie of Winnipeg, Ont., have made arrangements with the proprietors of the town site at Edmonton station to erect a roller process flour mill at the station at once. The mill will have a capacity of 100 barrels per day, and will be filled with the most modern machinery. No doubt the erection of this mill will be a great boon to the settlement generally and add an impetus to the progress of the town on the south side of the river. Mr. S. Parrish, of Calgary, is now building two stores value \$3,000.

Nelson and Fort Sheppard Railway. It is understood that the promoters of the Nelson & Fort Sheppard, B. C., railway have made arrangements with eastern capitalists whereby the construction of that road will be commenced by the end of 1893. The capitalists who have undertaken the building of the line are confident that no obstacle will be thrown in the way of connecting the line at the boundary with the American system.

Redistribution Bill. Regina Leader: We hope the government will reconsider its position on the Redistribution bill. The true course is to drop the bill and pass an act creating an impartial tribunal which shall on well understood principles redistribute the seats after every census. The very strength of the Government is a reason which on large public grounds as well as on party grounds, should impel it to a course that will commend itself to the justice of the country.

Salaries at Calgary. Last week a quantity of liquors was seized at Calgary. The goods had been forwarded by Velle, Carey & Co., of Winnipeg. On Tuesday the consignment was released by the inspector and were soon thereafter delivered to their respective owners. The case has been appealed and will be heard by Judge Rouleau. A fine of \$50 and costs amounting to \$31, were paid by Mr. Velle at the conclusion of the case. The costs include the Magistrate's fees.

The Canadian Agricultural Co sold in Calgary this spring nearly 2,000 bushels of wheat, all for seed; over 20,000 bushels of oats, -a large proportion for seed; and 3,000 to 4,000 bushels of barley, nearly all for seed.

Salaries of Mail Clerks. We received definite word from Ottawa on Tuesday that the salaries of mail clerks of the Manitoba division, despite the strong fight made by all the western members, with large support from some in the east, will remain as at present, i. e., the same as paid to eastern clerks. It is idle at this time to rehearse the many claims advanced on this point. The subject has been fully ventilated in the press. We still hold that a great injustice has been done a hard-working and ill paid class of public servants and that in not granting the claims of the mail clerks the government have been exceedingly short sighted.

Run of the Fire Brigade. A highly successful run of the Fire Brigade was held on Tuesday night. A pile of barrels and boxes was lighted near the school and the alarm given. Mr. James Chisholm's team was taken from his stable on Manitoba street, run on the gallop to the engine house and were hitched in one minute and one quarter. Arrived at the miniature fire the Brigade worked splendidly and had it out in a twinkling. Deputy Chief Melhuish is just the man for his position and ere long will have a highly efficient brigade under him.

The citizens of the town should encourage the boys in every way and endeavor to provide means to give them all the practice they require. It is to be hoped that the time will not soon come when they will have practice of a more serious nature, but should that time come we have no doubt that the brigade will render such valuable service as will amply repay any expenditure to place it in an efficient condition.

A PRIZE PICTURE PUZZLE.

The above picture contains four faces, the man and his three daughters. Anyone can find the faces of the three young ladies. The proprietors of Moose Jaw Prize Pills will give an elegant Gold Watch to the first person who can make out the three daughters' faces; to the second will be given a pair of genuine Diamond Ring-Rings; to the third a handsome Silk Dress Pattern; to the fourth a Coln Silver Watch, and many other prizes in order of merit. Every competitor must cut out the above puzzle picture, distinguish the three girls' faces by marking a cross with lead pencil on each, and receive same with no three cent Canadian stamps for one box of MOOSE JAW PRIZE PILLS, addressed to THE FOX PILL COMPANY, Wellington St. West, Toronto, Ont. The person whose envelope is postmarked first will be awarded the first prize, and the others in order of merit. To the person sending the last correct answer will be given an elegant Gold Watch, of the best workmanship and of course timeless; to the next to the last a pair of genuine Diamond Ring-Rings; to the second to the last a handsome Silk Dress Pattern, in yards in any color; to the third to the last a Coln Silver Watch, and many other prizes in order of merit. WE SHALL GIVE AWAY 100 VALUABLE PRIZES (should there be many senders in correct answer). No charge is made for boring and packing of prizes. The names of the leading prize winners will be published in connection with our advertisement in leading newspapers next month. Every premium will be given to those who are willing to make an introduction of our medicine. Nothing is charged for the premiums in any way, they are absolutely given away to introduce and advertise Fox's Prize Pills, which are purely vegetable and are gently yet promptly on the liver. Kidney and bladder troubles, Rheumatism, Fever and Cold, discharging the system thoroughly and cure without compromise. They are sugar-coated, do not grip, very small, easy to take, one pill a day, and are purely vegetable. Perfectly digestible and harmless to the system. All premiums will be awarded strictly in order of merit, and will be awarded to the person who sends in the first correct answer to the puzzle. All premiums will be awarded to the person who sends in the first correct answer to the puzzle. All premiums will be awarded to the person who sends in the first correct answer to the puzzle.
